## Board Meeting Notes

There was no Board meeting in September due to the busy AKC event schedule.

The next meeting of the Board will be Wednesday, October 11, 2006 at 7 pm at Gander Mountain WEST in Hilliard on Rome-Hilliard Road. The recent fall AKC events will be discussed, as will the AKC field trial and hunt test schedules for 2007. **All members are encouraged to attend Board meetings.**

## AKC Fall Field Trial Results

Ohio Valley Retriever Club's fall AKC Field Trial was held Friday, September 8 through Sunday, September 10, 2006. View complete results at [www.entryexpress.net](http://www.entryexpress.net).

From the Burns's:

The field trial is over and in spite of many difficulties with our grounds, we managed to once again provide a very good trial for our contestants. The judges were able to set up tests in cover that was over grown and sparse water that at first glance would have had less capable and creative judges throw up their hands and quit.

As the years go by, Woodbury Wildlife area is becoming so over grown that if some measures are not taken, soon it will be totally unsuited for field trialing. We probably should try for a spring trial as the cover is down and the water high at that time of year.

I want to thank all of the people who contributed to the success of this event. First I thank co-chair Bev for doing so much of the work. Ed and Nancy Schillig once again filled several positions for the weekend including marshalling the Open, moving equipment and birds, throwing birds and on and on. What service they give to our club.

Frank Weisbeck, Steve Ross, Gary Gardner and David Downs came out to work on Friday and really took some pressure off as I thought we would have to use contestants to shoot and throw the live bird station at the Derby. Don Smith and a friend shot the Open flyer and they put the bird where the judges wanted it. Tim Price came out to help on Saturday. Greta Ode and Bill Ash marshaled their stakes for two days and kept things going smoothly as good marshals do. Marty Bell not only judged the Qualifying, he also worked with equipment and transporting to new locations.

Thanks again to everyone who came and participated.

Sincerely, Jerry and Bev Burns
